72-HOUR EMERGENCY PREPAREDNESS

Two-page overview | What to prepare, in what order, and where the detailed checklist helps

FOR A FAMILY OF FOUR: **24 L basic three-day water target**

Step 2: work toward 48 L (2 L drinking + 2 L cooking / cleaning per person per day). Count pets separately.

WHAT THE COMPLETE GUIDE COVERS

- Water and food for at least 72 hours
- Light, communication, batteries and phone power
- Warm clothing, shelter and home tools
- Detailed first-aid contents, medicine and hygiene
- Documents, go-bags and family reunion planning
- Dog / cat supplies, travel and pet first aid

HOW TO PREPARE WITH A LIMITED BUDGET

- Step 0: use what you already own; make a plan
- Step 1: essential water, food, medicine and safety
- Step 2: expand water, backups and comfort supplies
- Step 3: optional gear for local or personal risks
- Use the detailed checklist to record HAVE, NEED and OK
- Buy missing quantities only; avoid duplicate kit items

START WITH THE CRITICAL NEEDS

Water: At least 2 L/person/day; plan 2 L extra for cleaning/cooking if feasible.

Food: Plan 3 days of meals and snacks that can be eaten during an outage.

Medical: Keep prescriptions, medical supplies, first aid and emergency contacts ready.

Information: Flashlight, a working radio, charging and an evacuation / reunification plan.

Not an official or exhaustive document. Adapt this to your household and the emergencies relevant to your area.

THE COMPLETE PLAN AT A GLANCE

Quick overview | The detailed checklist is the item-by-item guide you take to the store

FAMILY / HOME ESSENTIALS

- Safe water and no-cook food
- Flashlights, spare batteries and AM/FM radio
- First aid, prescriptions and personal hygiene
- Seasonal warm clothing and grab-and-go bags
- Important documents, cash, keys and contacts
- Working smoke and carbon-monoxide alarms
- A household plan covering children and medical needs

PETS (ONLY IF APPLICABLE)

- At least three days of regular food and pet water
- Secure carriers, leashes, bowls and cleanup items
- Pet medications, records and contact information
- Identification, photos and backup caregivers
- Pet first-aid items selected with a veterinarian
- Pet-friendly evacuation destination

THREE SAFETY CHECKS

- Do not use a barbecue, generator or camping stove indoors.
- Water treatment products do not remove every hazard.
- Follow official warnings; keep important medicines and supplies accessible.

HOW TO KEEP IT READY

- The full checklist records target, have, need and ready.
- Review food, water, medicines and batteries twice yearly.
- Keep home reserves separate from portable go-bags.
- Expand supplies across pay periods if needed.

Guidance: Canada emergency kit checklist, Health Canada food/water safety, Canadian Red Cross first aid, Canada pets guidance.

The complete checklist provides item-level quantities and the links to the public guidance it used. No purchase is required to begin planning.
